

Introducing the Mobile LED Screens

Ultra Bright. Lightweight. Ready When You Are.

Pioneer[®]
LED

Something to know **about us.**

Everything started with **an Idea** and **three individuals**

At PioneerLED, we don't just build LED trailers, we build bold experiences.

Founded in the heart of Britain, we are the only UK-based manufacturer of mobile LED display trailers. From concept to creation, every screen we deliver is designed to elevate visibility, simplify setup, and perform flawlessly in the field. Our commitment to in-house manufacturing ensures complete control over quality, innovation, and reliability. No outsourcing, No compromises.

And Now,

Our goal is to help brands stand out. We focus on building mobile LED solutions that are durable, intuitive, and built for the field.

Every PioneerLED trailer is designed with setup simplicity and display excellence in mind, making it easier for you to shine at every show, stadium, street or screen.

The **LITE** Trailer

Agile. Lightweight. One-Person Setup.

The LITE Trailer is the most agile mobile LED solution on the market. Weighing under 750 kg, it's towable by almost any vehicle and deployable in under 10 minutes, by a single operator.

The **FOLD** Trailer

Full-Scale Screens. Fold-Down Portability.

When you need size without sacrificing speed or transport ease, the FOLD Trailer delivers. With screen sizes ranging from 12 sqm to 28 sqm, this dual-axle system features a smart folding mast, extendable stabilizing legs, and an optional battery or generator power supply, all engineered for outdoor performance.

With CE certification, wind resistance up to 72 km/h, and compatibility with the NovaStar control system, the FOLD Trailer is built to perform across live events, sports grounds, and large-scale outdoor venues. Setup remains simple, transport stays compact, and your message gets seen — big and bold.

The MediaVan

The All-In-One Digital Advertising Vehicle.

For mobile advertising that's as flexible as your campaign, the PioneerLED MediaVan is the perfect solution. With high-brightness LED panels on up to three sides and options for either battery or generator power, this van is made to be seen, whether parked, driving, or on the move between venues.

MediaVan is ideal for retail activations, promotional roadshows, sports events, political campaigns, and community broadcasts.

They offered great and great was delivered!
I wanted to say a massive thank you to PioneerLED. You have created a wonderful LED displays for my charity event which made it absolute stunner! Without you the event wouldn't be the same!

I recently phoned the shop with a problem with my sign. I was expecting the worse as it wasn't scrolling across all the screen. I explained the problem and they then FaceTimed me and talked me through what the problem could be. Within 5 minutes he had pinpointed the problem and told me to swap ribbon cables over and diagnosed a fault in one of them. He then sent me a link as to where I could get the cables which I then purchased on Amazon. When the cables arrived I fitted them and the sign is now working perfectly. What a great service they offer. 10 out of 10 for customer service and going that extra mile. When I purchase a new sign I will definitely using them. Many thanks for your time and knowledge in helping me to fix my sign. Much appreciated

Made in Britain. Built for visibility.
